Re: Inventories of Injection Wells for the Saratoga Region
Docket No. SDWA-UIC-IR-14-001

Dear Mr. McKenna,

Your letter dated November 28, 2013, from EPA Region II requested that the New York State Office of Parks, Recreation & Historic Preservation (OPRHP) submit a complete inventory of underground injection wells in facilities operated by OPRHP. The Finger Lakes Region's inventories, as well as those for five parks on Long Island, had already been submitted. Your subsequent correspondence requested that NYS Parks submit the remaining inventories as they become available. OPRHP's ten remaining regional offices have initiated efforts to inventory the discharges and are making substantial progress on gathering the necessary information.

Attached you will find an inventory for each of the ten facilities with Class V wells in the Saratoga Region. You will also find a description of the facilities that do not contain any Class V wells and a list of the facilities that do not generate sewage for disposal.

We will continue to send information as it becomes available. Thank you.

Very truly yours,

Andy Beers
Executive Deputy Commissioner

Enclosures
